

1) Why did you choose NMS?

NMS is one of the oldest medical school in Japan, and has produced so many well-known doctors and professors. NMS also has the international exchange program that already established and had so many international students come

The plastic reconstructive and aesthetic surgery division in NMS has published so many journals, and being one of the references for the scar treatment in the world.

2) How was your study in Japan?

It was very pleasant. All the lectures gave all the knowledge they know and gave me motivation to do more and better. They let us being part of the division family, and gave us the opportunity to learn everything. All the residents also very helpful, they accompanied and explained to us what should do along our time in Japan. The International exchange center also provides us everything we need, from the daily life information to hospital-related matters.

3) How was your life in Japan?

Japan has always a place in my heart. It feels like being in another world, yet I still come from Asia country. Everything was completely organized, clean and safe. I never have to be worried when I had to come home late night from the hospital. It was so convenient living in Japan. I called It “Japan always has something for everything”.

4) Any comment on NMS?

Thank you for giving me the experience of my life. I could have

5) Do you have a message for people who are interested in studying at NMS?

I would love to recommend to everyone who wants to study more in Japan to come to NMS, because NMS was so special. Just come and experience yourself.

6) Memories of Japan:

Japan is another level. I called It “Japan always has something for everything”. It provided even the most unpredictable thing we know but eventually, it helped us even more. Everything was completely convenient, organized, clean and safe. One thing I would miss the most maybe the public toilet hahahahaha. It was so clean in almost everywhere.
